BRISTOL — Quinoco Energy Services Inc. is a full-service fuel and HVAC energy company servicing customers from three primary locations in Connecticut.

Their office and storage facilities in Farmington, Bristol and Torrington enable them to provide premier services to their community of customers throughout western and central Connecticut.

Today's heating and cooling industry is much different from when the company started more than 140 years ago, said Don Phillips, Quinoco president. "Today, we offer our customers comprehensive heating and cooling products and services, including our inventory of high grade heating oil, diesel fuel, kerosene, and propane, plus quality heating and cooling equipment."

"Our community is the most important part of our business," Phillips said. "Therefore, our continued mission is to help our customers conserve energy while maintaining safe, comfortable home and work environments. We seek to do so by hiring dedicated employees with proven work ethics, by keeping our employees educated and protected, by returning your queries promptly and sufficiently, and by delivering your services with the highest quality and at a fair price every single time."
